

**STALCO SA**

**Construction of High Pressure  
Steel Tube Coils and other  
Special Constructions**

# Forming of steel parts

# Forming of steel parts

# Assembly

# Testing and Quality Control

All the products undergo all the necessary non destructive (routine) tests according to international standards

Specifically:

- Optical Test and Measurement
- Penetration Test for each weld
- Radiographic Test for each weld
- Internal Diameter Test (steel ball)
- Hydraulic test (60-200Bar)

All the welding and bending procedures are certified by a an independent agent

# Grouping

# Finished Steel Tube Coils

# Transportation
